14th Annual North Dallas Artist Studio Tour-2017

Saturday April 29th & Sunday April 30th, 10 to 5

Only a fraction of local art is on view in galleries and shops. North Dallas Artist Studio Tour is a chance to view the latest in local art by accomplished artists right in your neighborhood. These working artist spaces allow a revealing look at the variety of original art in Dallas. The tour includes 27 artists showing unique, handmade work in many mediums and styles.

Photographer Sheila Cunningham uses traditional and digital tools to convey thoughtful reflections on contemporary issues. Recently, using hundreds of discarded books, she and a collaborative partner have created sprawling site-specific book-art installations, which she records in photographs.

Jan Dreskin-Haig is primarily a ceramicist. One of her favorite methods is Nerikomi, a Japanese technique for hand-building objects with multiple colors of clay. By layering, compressing and cutting, the colors are carefully developed into a pattern that becomes the decoration of the final form.

Nathan Jones is a traditional, realistic artist. He has been, a US Postage Stamp artist, product developer, and architectural designer. He produces art using a technique that he calls Painting with a Pencil. His method achieves fine gradient tones with graphite that appear to be painted.

The artists on the tour want to share their enthusiasm for art, and to talk with you about their work. They invite you to explore, learn about and enjoy art. Pick up a paper map at any of the 16 studios. Visit NorthDallasArt.com.
